Contract clauses

1. Existing capability

The customer receives Basic transaction monitoring, consisting of threshold-based notifications and a monthly exception report.

2. Not included

Machine-learning-based fraud detection, behavioural analytics and real-time risk scoring are not included in the subscribed service.

3. Optional upgrade

Enhanced monitoring and Fraud Detection may be offered under a separate order form after technical and commercial review.

4. Data

The customer will provide transaction data required for the agreed monitoring scope, subject to the parties' data protection obligations.

5. No guarantee

Alerts are decision-support information and do not guarantee detection or prevention of every fraudulent transaction.

Demo intelligence notes (for testing only)

Potential cross-sell: Fraud Detection. Potential upsell: Basic Transaction Monitoring to Enhanced Monitoring, if represented in the product catalogue.
